

REED TRIPODS R450⁺ SERIES

Reed Tripods are among the strongest pipe vises available. They feature a padded carrying handle at the balance point, making them conveniently portable, too.

From our classic R450⁺ to the new, larger R470⁺ Tripod—and a number of specialty-use models—Reed Manufacturing has the right solution for your next tough job.

To learn more about our entire line, visit www.reedmfgco.com or call us at 800-666-3691.

Pipe Jacks

JHV (V-head) high jacks (2,000 lb / 907 kg capacity) feature a convenient adjusting screw and hardened steel locking ring for years of use.

Roller head jack **JH2R** has extra wide bearing for strength (2,000 lb capacity) and long tool life. Adjusting screw gives proper working height.

Ball transfer attachment **JTA** (1,000 lb / 454 kg capacity) bolts to either side of V-head.

Ball transfer head attaches to RIDGID® and Sumner® models, as well. Reed heads (JTA, JH2R) and bases interchange with Sumner® and Greenlee®. All heads fit both high and low jacks.

Soil Pipe Cutters

The fastest way to cut cast iron soil pipe, clay pipe and small diameter concrete pipe!

With a captured screw, the **SC49** is the easiest to use for close quarters work. **SC59** single stroke cutter is the fastest when no space restrictions exist. Reed's cutters have stronger jaws, chains and adjusting screws.

Quick Release™ Cutters

The Quick Release™ cutter, **another Reed invention**, with the ball detent pin for quick wheel change makes Reed tubing cutters true time savers. Cut from 1/8" (3 mm) to 10" (254 mm) for tubing and plastic.

Cutter Wheels

Reed has the widest variety of high quality wheels for more cutters and more brands than any other manufacturer!
